

Striped Snake Barbecue (one is putrid - don't eat it!)

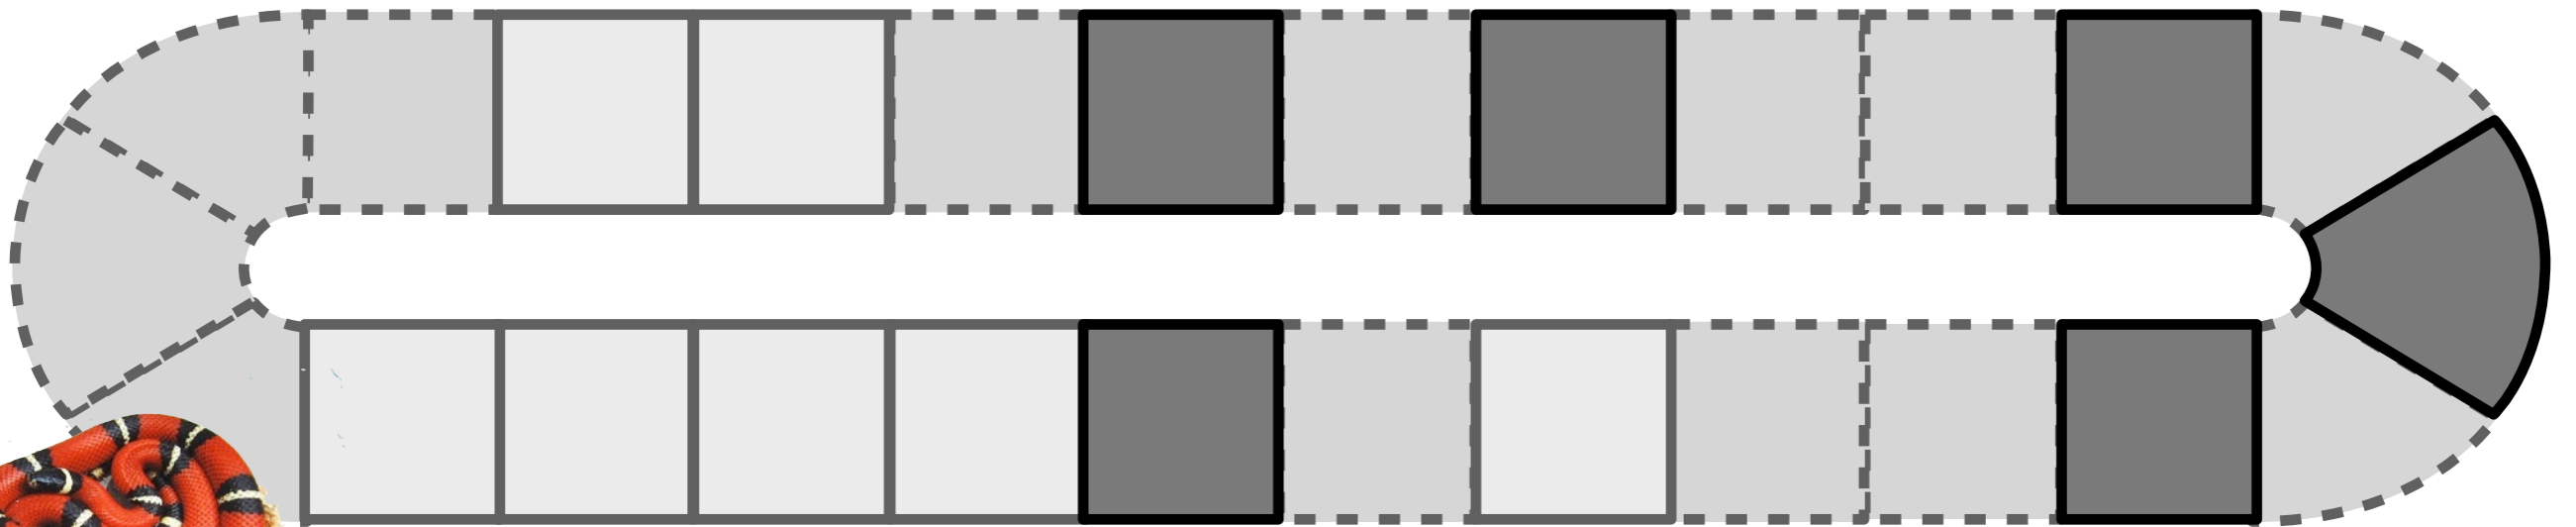

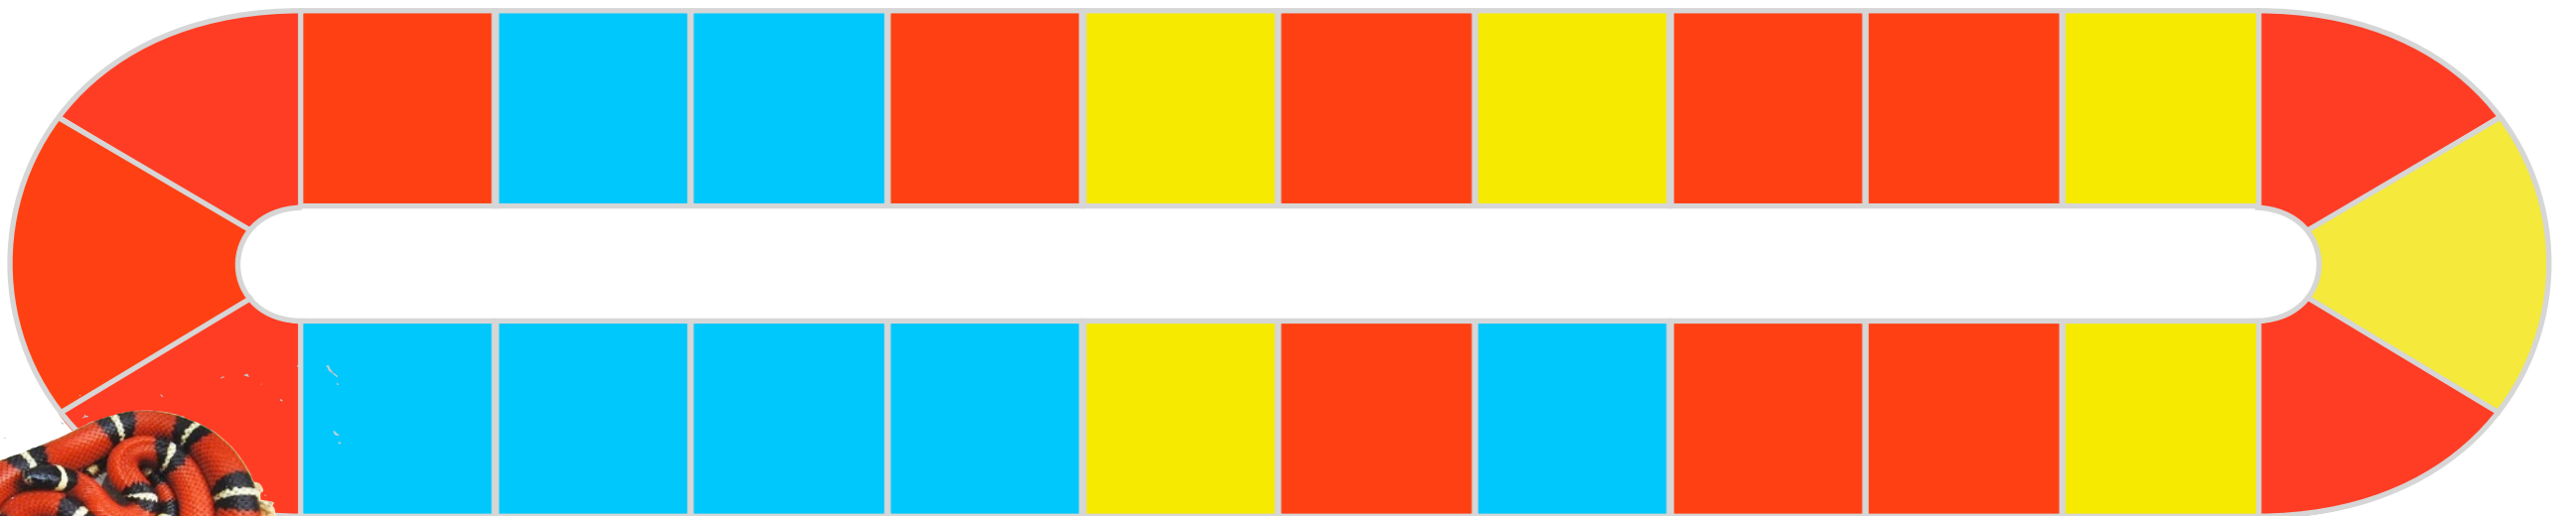

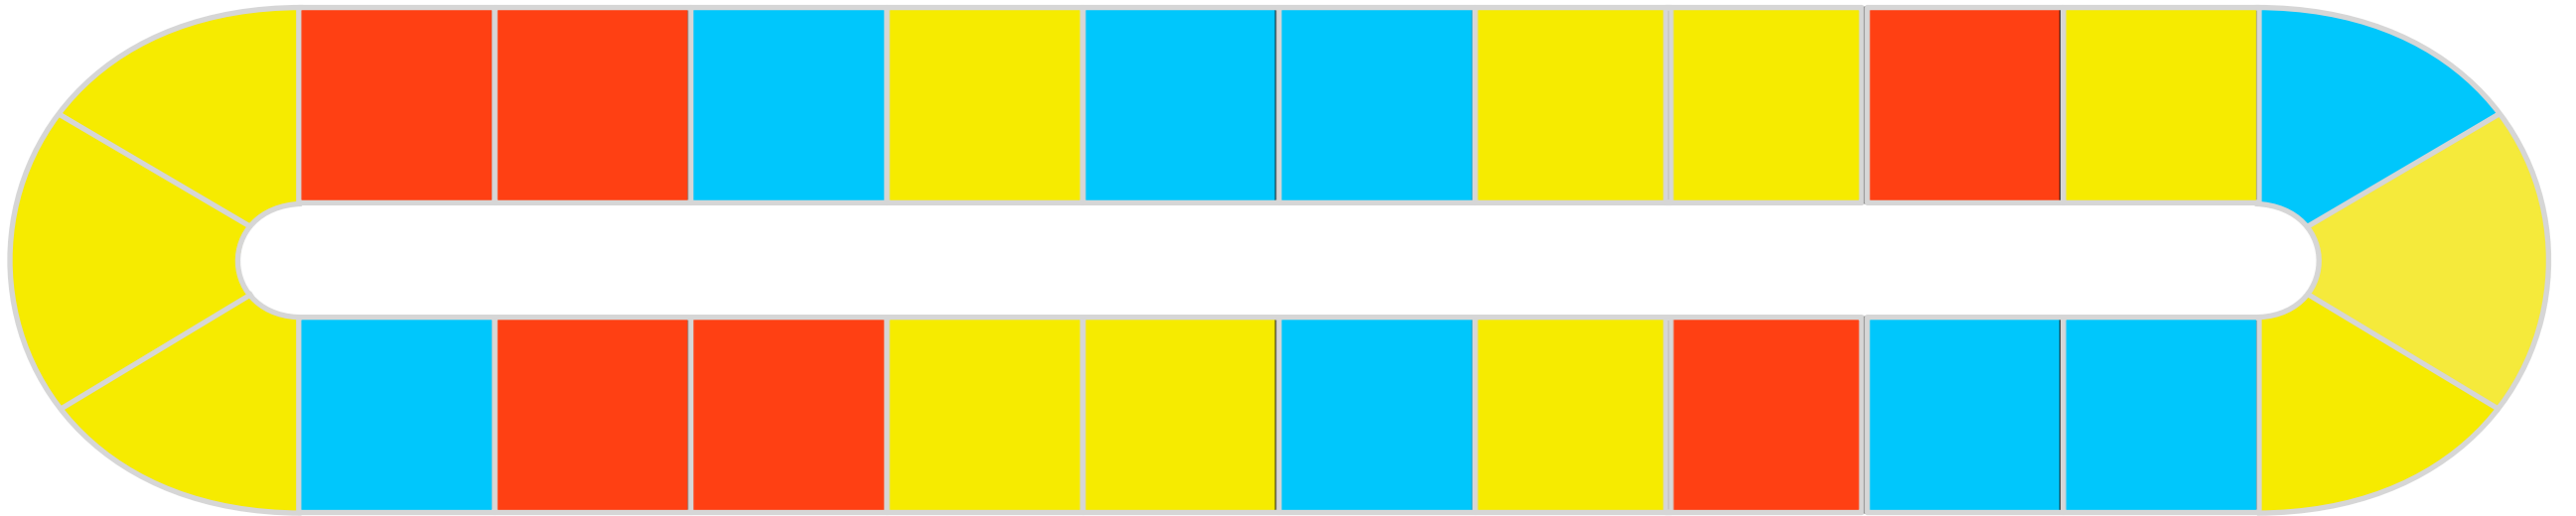

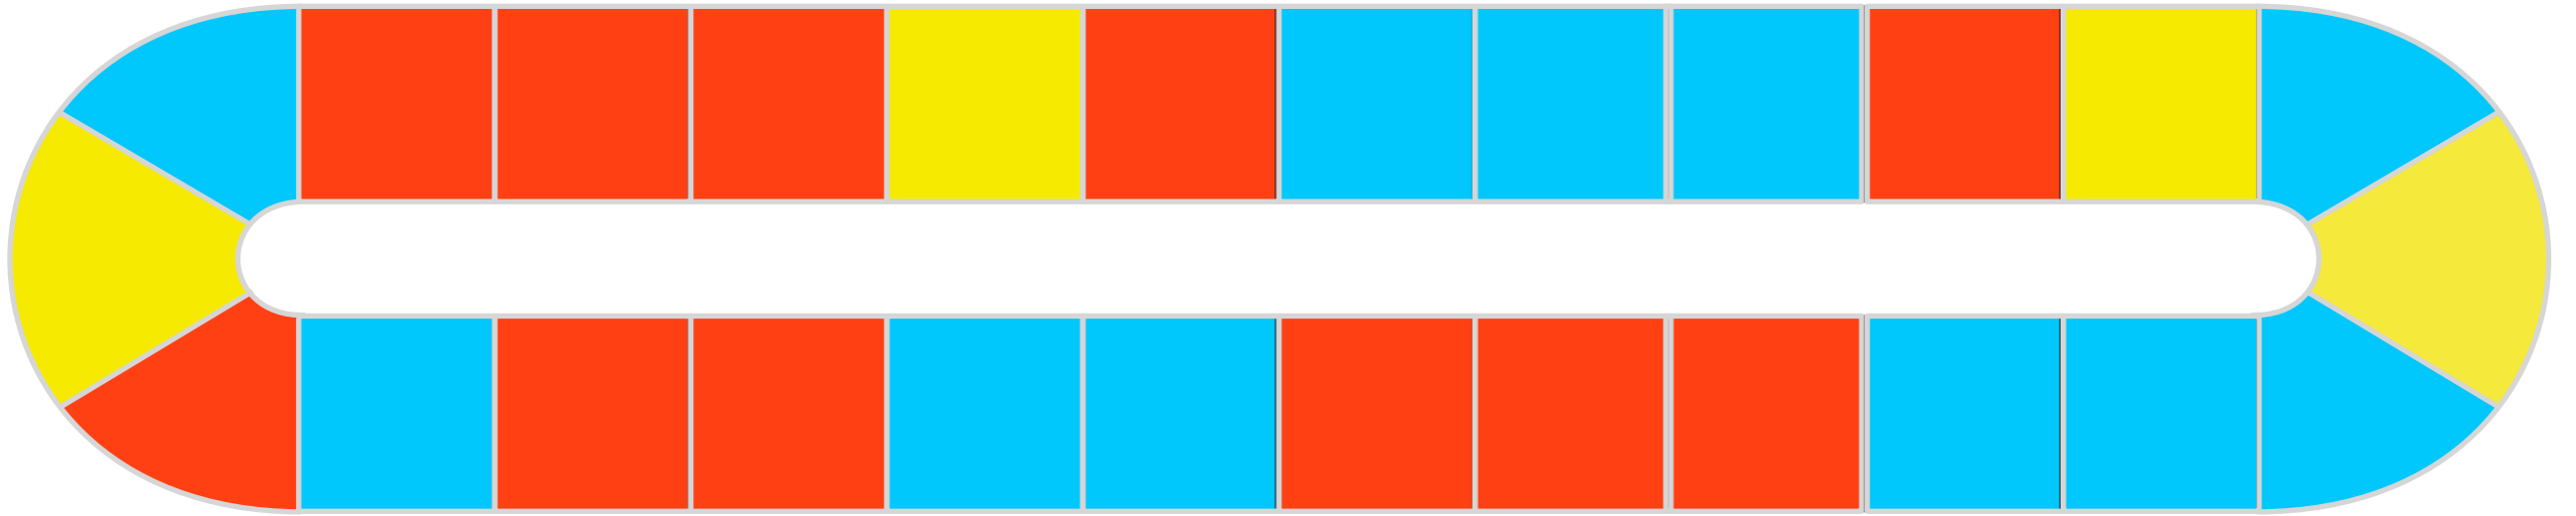

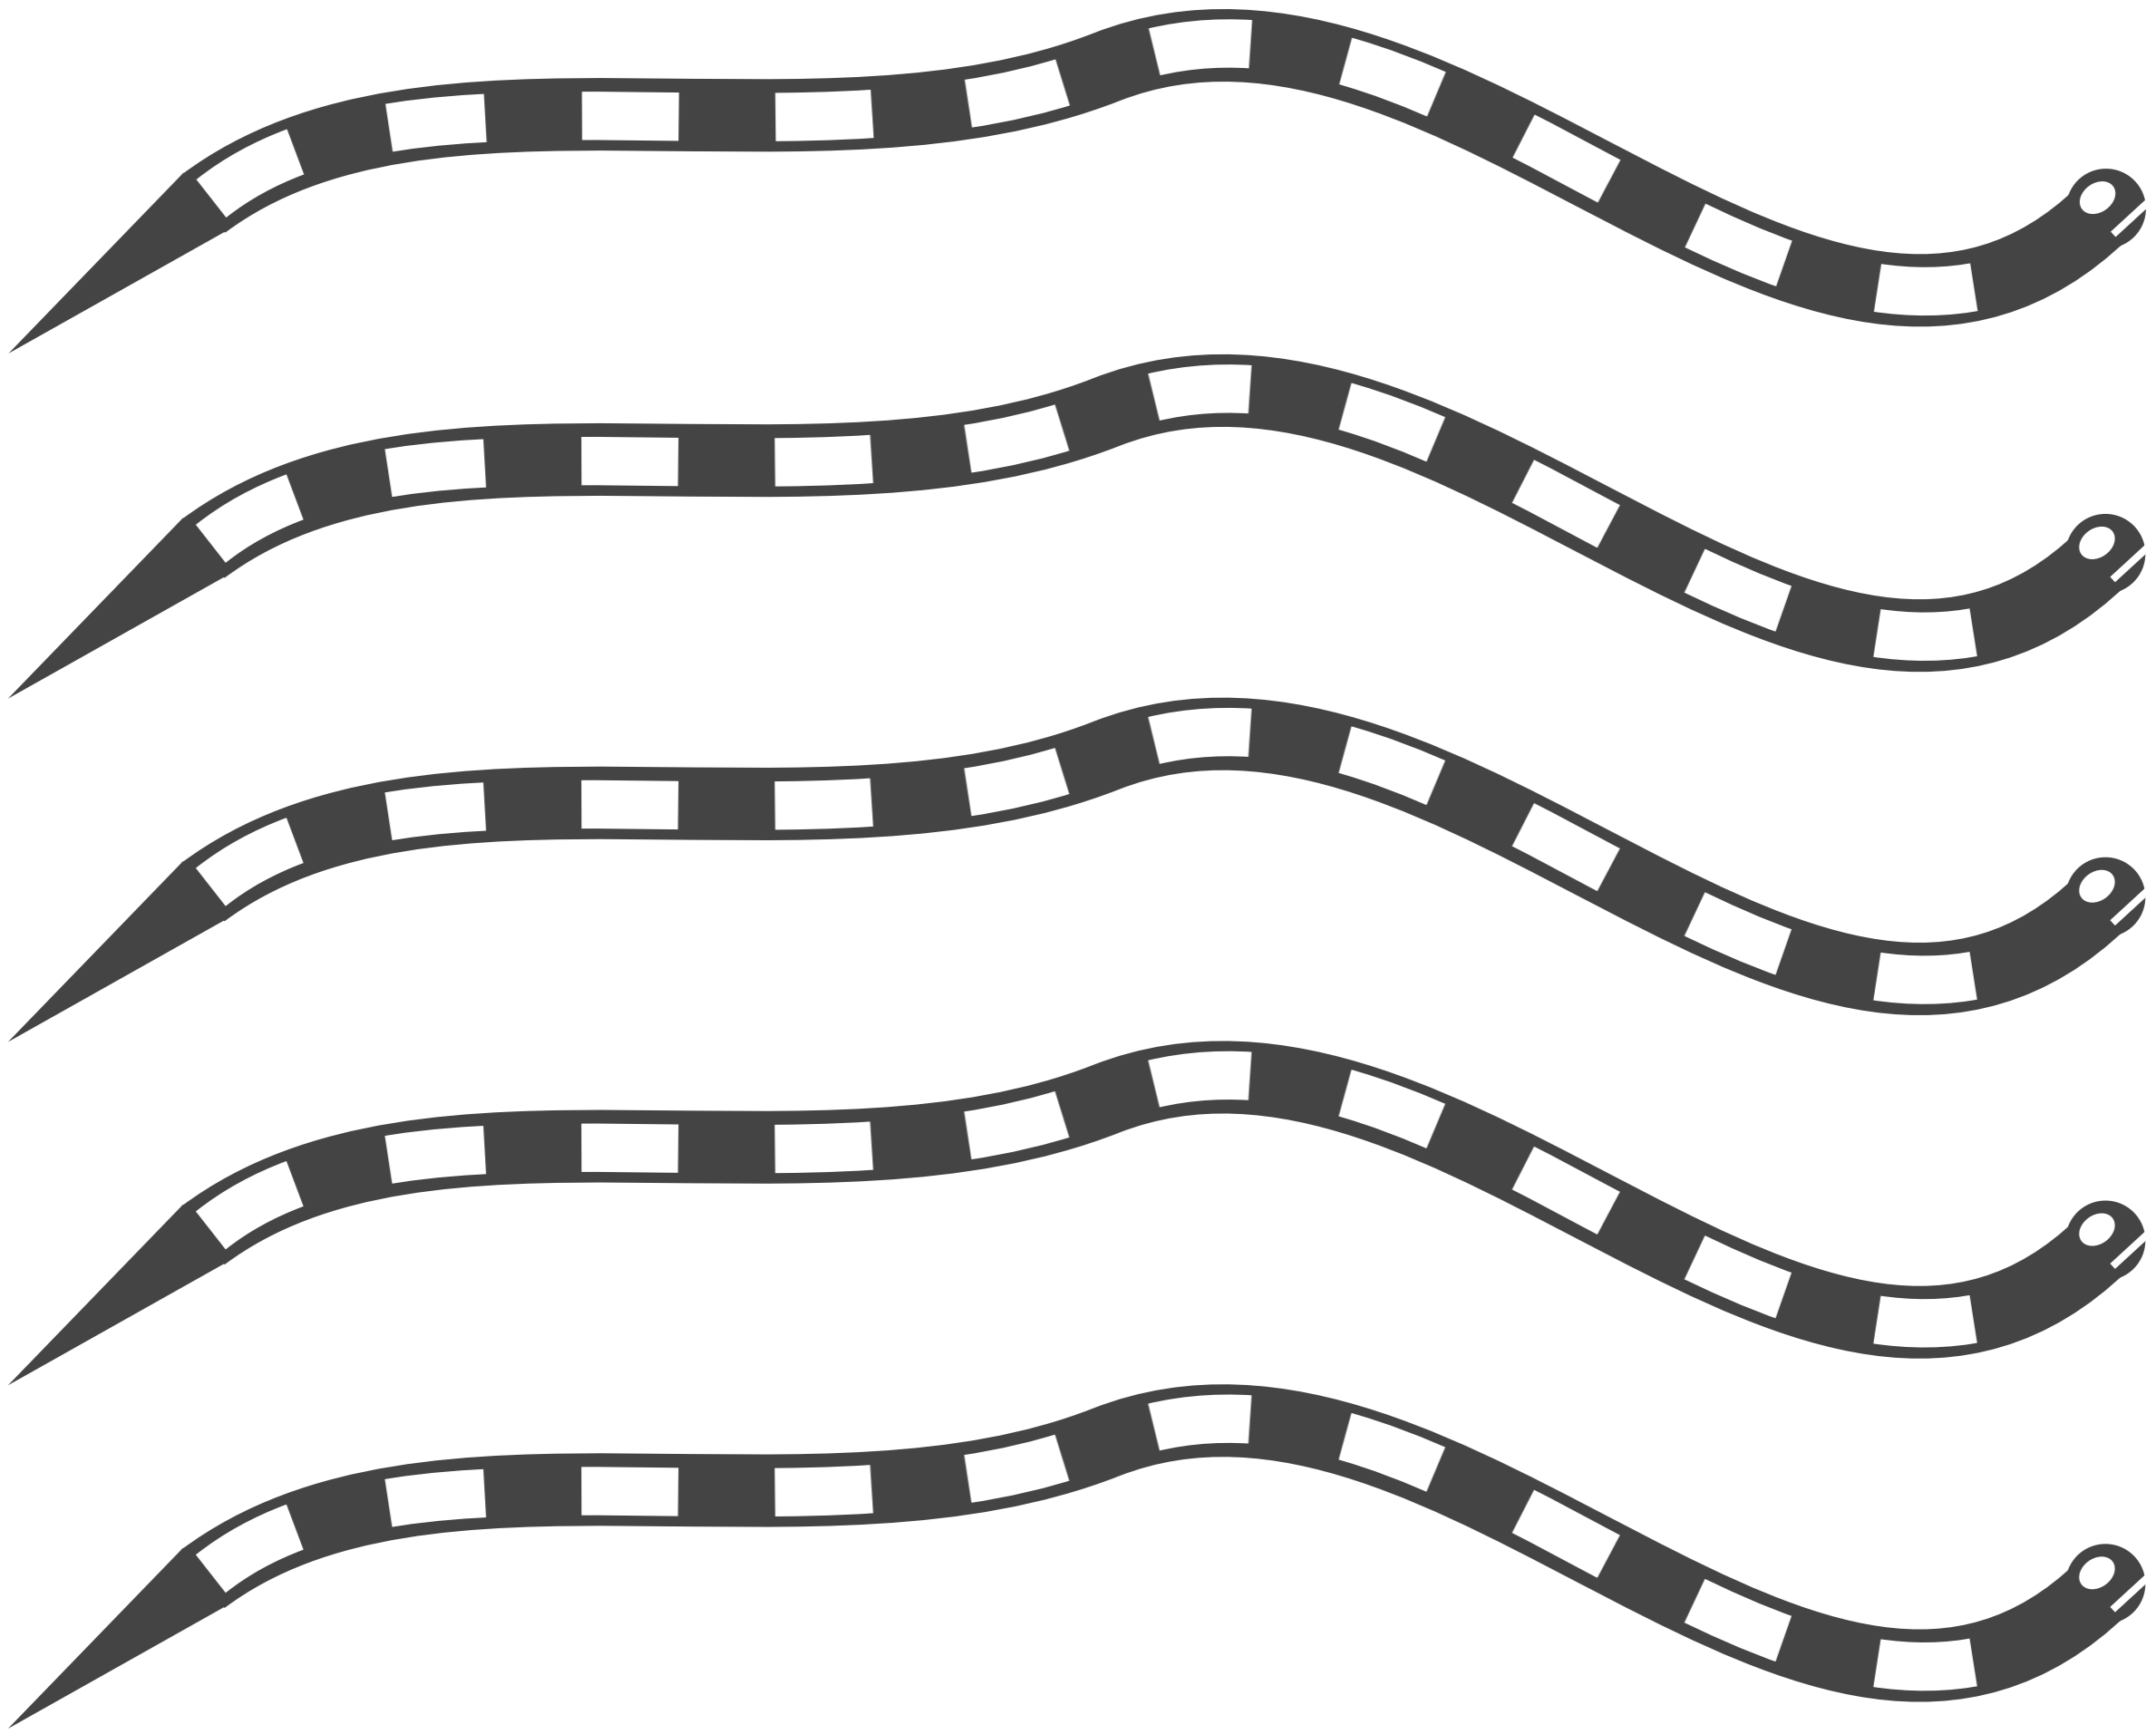

Striped Snake Barbecue (one is putrid - don't eat it!)

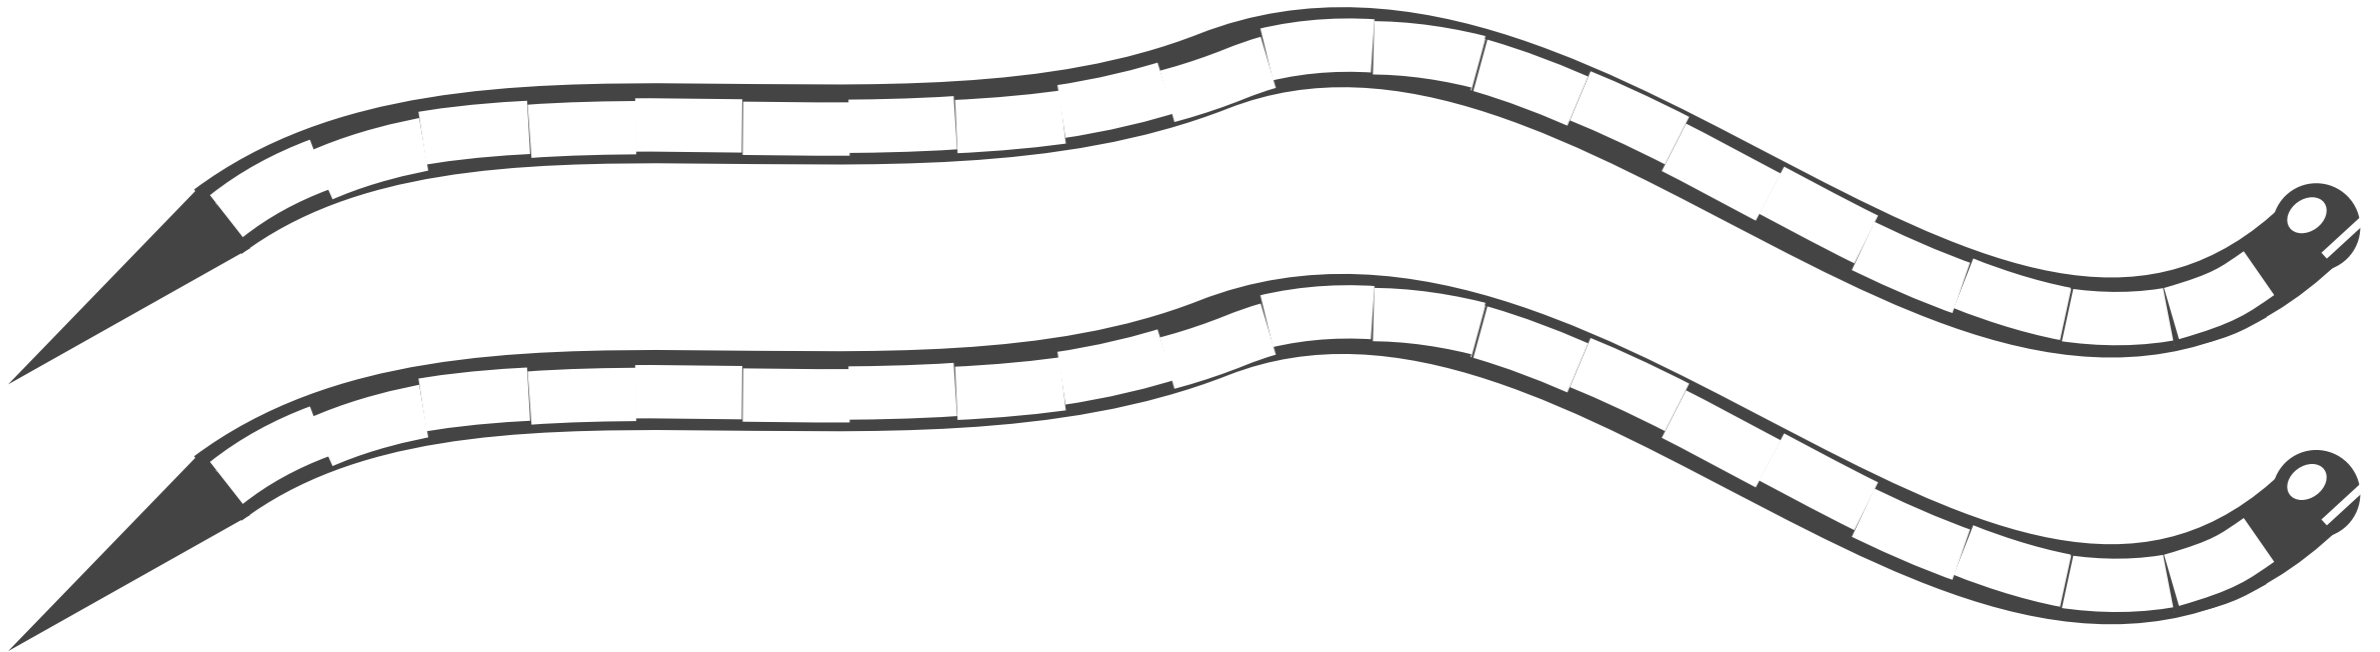

www.MathPickle.com

Make one snake that can be eaten, and one that is impossible.
Try to make it difficult for someone to figure out which is which.

Copy the snakes above to those below.
Give it the snakes below to a friend or enemy to see if they can find the edible one.
You may need to fold or rip the paper in two so they don't see your answers above.
