William Paulsen

$$103 - 64 = 39$$

$$39 - 32 = 7$$

$$7 - 4 = 3$$

$$3 - 2 = 1$$

$$1 - 1 = 0$$

1) Starting at **2**<sub>10</sub> is there a prime you can get to, but cannot escape from?

2) Is it possible to get to **11**<sub>1011</sub> when starting from **2**<sub>10</sub> ?

3) How many rooms can you visit starting at **2**<sub>10</sub> ?
